

## 73, ROOSEVELT, 19 FOR TAFT; LATTER TO BOLT

San Francisco Republican County Convention Organized by Progressives

### SANBORN KEEPS QUIET

But Reactionaries Will Walk Out When Roosevelt Is Endorsed

SAN FRANCISCO, Sept. 16.—The Taft faction in the San Francisco county convention held last night when the convention endorsed Roosevelt and Johnson tomorrow night. This decision was reached at a caucus of the Taft delegates held here today after the first session of the convention. No question as to the endorsement of the Progressive candidates for the presidency and vice presidency was raised, as the convention stands seventy-three for Roosevelt and nineteen for Taft.

The proceedings of the convention today were perturbed by the expected clash between the Sanborn and Roosevelt factions of the county central committee. Sanborn, respectively for Taft and Roosevelt, met an opposition. While Taft leaders here said last week that Sanborn would appear at the convention and might attempt to call the convention to order, he was not present and Roosevelt met an opposition in taking the chair. In all seventy-five of the ninety-two elected delegates, including the entire Taft delegation of nineteen, were in attendance. (Harris' Commission) John H. McCullum was elected chairman, and J. H. Sayers, secretary. The appointment of committees constituted the only remaining business of the meeting. The committees will report at the meeting tomorrow night. When the chair returned in calling the roll, reached the name of Mrs. S. L. Long, a deep bass voice answered "There." The explanation followed that Mrs. Long had given her proxy to one of the other delegates.

### POSSIBLY BOTH TICKETS

SAN FRANCISCO, Sept. 16.—There is a strong probability that the general election of the November election will contain both Roosevelt and Taft tickets, and that those who will go on the ballot as the nominees of separate Republican conventions—the Progressive Republicans and the Taft Republicans.

This will be the result of the expected bolt of the Taft Republicans from the state Republican convention to be held next Tuesday at the capital, and the placing of two sets of electors on the ballot will, it is understood, be done by Secretary of State Frank Jordan.

While Jordan has refused to say just what he will do, he said today that when he has ascertained that California will have a ballot for electors, he will be made to any fair-minded man or any fair-minded organization.

## 4,482 CORPORATIONS HAVE NOT PAID TAX

Have Until November 30th to Save Their Charters Under State Law

SACRAMENTO, Sept. 16.—(London and Governor Wallace today issued a proclamation requiring 4,482 corporations, which have become delinquent through their failure to pay the 1912 corporation license tax before September 1st, to pay it by November 30th.

According to the terms of the proclamation made out in accordance with the provisions of the corporation license law, these corporations will have until November 30th, at 4 p. m., to pay their taxes, provided they pay an additional \$10 as a penalty required in the law.

The failure of many of the corporations to pay on time this year is due partially to the recent decision of the Supreme Court in the Milford case declaring the corporation license tax and fee bill to be unconstitutional. Under directions from the attorney general's office, however, Secretary of State Jordan has been collecting the license taxes as usual, awaiting a readjustment of the law at the coming session of the state legislature.

All these companies not paying their taxes with the penalty before 4 p. m. on November 30th will be listed and another proclamation issued from the executive offices declaring their charters forfeited. This proclamation will be published in several papers according to law.

### SMALL BOYS FATALLY BURNED IN EXPLOSION

SAN JOSE, Sept. 16.—Two small boys, aged 10 and 11, were killed by a fatal explosion here today when the explosion of a boiler on a traction engine, which was being at the side of Pleasant avenue, both boys were thrown fifteen or twenty feet by the explosion. Their chief injuries are about the head, face and hands. It is supposed the boys were playing about the boiler with matches which caused the boiler to set fire to the upper works of the machine.

## ROBBERS LOOT MAIL TRAIN ON SOUTHERN LINE

CHATTANOOGA, Sept. 17.—Southern railway passenger train eastbound, known as the Memphis special, was held up at Stevenson, Ala., thirty miles west of here at 1:20 o'clock this morning. It is reported the mail car was looted and the passengers were not injured. The mail car contained mail and money. The mail car was looted and the passengers were not injured. The mail car contained mail and money. The mail car was looted and the passengers were not injured. The mail car contained mail and money.

### CHINESE PREMIER IS TO RETIRE SOON

Peking, Sept. 16.—It is announced that Lu Hsiang-shan, premier and minister of foreign affairs, will retire from office on account of ill health. Cao Hsiang-chun will assume the premiership, and Liang Hsiang-shan will be appointed minister of foreign affairs.

## MEXICO MUST BORROW MONEY

Madero Says Rebellion Is Crushed—United States Claims Too Big

MEXICO CITY, Sept. 16.—But one reference to relations between the United States and Mexico was made by President Madero in his message tonight to Congress and that was in connection with the American claims for indemnity arising out of the battle of Juarez in 1911. The reason for their remaining unsettled, he informed Congress, lay in the exaggerated demands.

Regarding the twenty million dollar loan in June, he said that eighteen million of the loan already had been expended.

The President said the revolution practically was ended, blamed upon disappointed office seekers and upon exaggerating necessities. Reports to the contrary, he said, were unfounded. He said that peace would be restored.

He admitted that small rebel bands were operating in Sonora, that bandits occupied the attention of the army in the states of Mexico, Guerrero and Mexico, and that disturbances existed in a few other states. The President said it would be necessary to authorize another loan.

Including the twenty million pesos borrowed, the President said there was in the treasury June 30, the sum of \$1,220,000,000. He recommended compulsory military service.

## ENJOINS PICTURES OF WIFE'S FUNERAL

Jack Johnson Protests Against Commercializing of Death in His Family

CHICAGO, Sept. 16.—Jack Johnson, negro heavyweight champion pugilist, obtained an injunction today in the Superior Court, restraining the management of a negro theater from exhibiting motion pictures of the funeral procession of the champion's wife, who committed suicide, which is unauthorized by me, is an injustice to me and may cause the impression that I am profiting financially from the pictures," said Johnson.

Chief of Police McNeely issued an order placing a ban on the exhibition of the pictures.

## CLAIM LAWYER BETRAYED THEM

Brownells Show No Grief for Their Murder of Mrs. Brownell's Father

CULFAX, Wash., Sept. 16.—Mr. and Mrs. Wesley Brownell, who murdered Albert Brownell, father of Mrs. Brownell, at the home of Mrs. Charles L. Brownell, at Culfax, Saturday, spent a restful night and day in jail here. They asked that their children be brought to Culfax, and Mrs. Brownell, who had taken the children to her home at Culfax, today will reach Culfax to meet with the children and will arrange for the burial of her husband, from whom she had separated.

The Brownells assert that their lawyer, Cal de Sac, Idaho, after getting Mrs. Brownell's full story, sold his services to the men accused of murdering Mrs. Brownell. Brownell states he had no money while the men who assaulted his wife had backing and that after threats had been made to kill both him and his wife, they decided to abandon thoughts of justice and fled to the mountains. Culfax officers are investigating the alleged charges, but held no inquest today. The Brownells state that they are not grieved over the murder and talk freely.

SAN JOSE, Sept. 16.—Miss Zimmi Buford, a 17-year-old girl, killed her father, a Fresno banker, by hanging while apparently deranged. The young woman is said to have had a pleasant home and no reason was given for the suicide at the inquest held today.

## TURKEY WILLING TO ABANDON TRIPOLI TO ITALY

Peace Terms Have Virtually Been Completed at Geneva Conference

### RED SEA PROPOSAL

Some Italians Object to Giving Up Portion Massowah

PARIS, Sept. 16.—The terms for peace between Italy and Turkey have been practically arranged, with the exception of a proposed loan to Turkey of between 500,000,000 and 600,000,000 francs, concerning which Italy is now communicating with French, English and Belgian financiers, according to a telegram received today by the Paris Temps from Rome. One of its editors at Geneva.

The terms of the proposed settlement include the dispatch of the Italian occupation of Tripoli to the Turkish government, Italy being permitted to retain a Mediterranean port at one of the extremities of Libya, with a strip of territory allowing communication with the Arabs in the interior. Provision also is made for the recognition of spiritual suzerainty of the sultan in Tripoli; for the payment of monetary grants to the Arab chief by Italy, which will also pay to Turkey a certain amount of the national debt; the payment being guaranteed by revenues derived from Libya; and for the cession to Turkey of some portion of Italian territory on the Red sea as compensation for the loss of Tripoli.

The Italian delegates objected to the suggested reversion of part of Massowah in the Italian colony of British Somaliland, and this may be eliminated. The question of the status of the Aegean islands has not been raised, the writer concludes. Italy is aware that the powers would not agree to their reversion by Italy.

TWO BURNED TO DEATH; CRIME IS SUSPECTED

RAYMOND, Wash., Sept. 16.—In a fire which destroyed the Germania hotel in this city early today, Mrs. W. A. Davis, wife of the proprietor, and her father, C. J. Osborne, aged 72, were burned to death. The husband of the woman has been played in jail, pending an investigation by the authorities.

## DECISION AGAINST GAS CORPORATION

State Supreme Court Upholds Right of Municipal Regulations

SAN FRANCISCO, Sept. 16.—By a decision of the state Supreme Court, the Economic Gas Company of Los Angeles is denied the right to excavate in a new street or to lay pipes therein with intent to extend its lines into new territory without the consent of the city in which it operates.

The court upheld the constitutional amendment of October 10, 1911, limiting the rights of corporations to excavate public streets, and rules that "the investment of money in gas works to supply additional territory... could not operate as an estoppel against the people to elect changes in the constitution and the company must be deemed to have had knowledge of this sovereign power and to have assumed the risk that the power might be exercised."

In the case of the Economic Gas Company, the question arose whether the city had a right to pass an ordinance in February, 1912, limiting the street work of the corporation, or whether the original franchise of the company stood. The city contended that its ordinance was in accordance with the constitutional amendment of 1911 and therefore governed. Unable to gain permission of the board of public works of Los Angeles to open up new lines, the company went ahead and Robert Russell, one of its employees, was arrested in a test case.

The Supreme Court has upheld the amendment and the ordinance and Russell is remanded to the custody of the lower court. The decision was rendered last Friday.

## COMPTROLLER AFTER BAD BANK MANAGEMENT

WASHINGTON, Sept. 16.—Stirred by failures of national banks in the past few months, Lawrence D. McCullough, comptroller of the currency, announced today that he would take vigorous steps to make banking safer. Federal examiners will be instructed to make diligent inquiry, beginning October 1st, into the concentration of the funds of a bank in connection with the officers and directors. The comptroller said he would insist that the books of such concerns be open to the examiners, so that they determine whether they are money-making ventures.

## FEDERAL FORCES RETAKE EL TIGRE FROM SALAZAR

DOUGLAS, Ariz., Sept. 16.—El Tigre, one of the chiefest mining camps in northern Mexico, was retaken by federal troops this afternoon, after having been in the hands of the rebel band commanded by Leon Salazar for two days.

Telephone communication with the camp was restored just as the federal troops were ordered in and Superintendent Robert Andrew reported that the rebels were still in slight going over the hills. Not a shot was fired in the recapture of the town.

A hundred federal troops, chiefly from the Arizona National Guard, and a small band of rebels which had retreated to a reply to their demand for \$100,000 ransom took to the hills.

Several hundred additional federal troops are encamped in the vicinity of the town.

The rebels are reported to have taken with them \$20,000 worth of gold and silver bullion.

## AVIATORS SCORE AERO MANAGERS

Should Not Force Twilight Flights—Another Birdman Falls

CHICAGO, Sept. 16.—Aviators and their friends criticized the officials of the Aero Club of Illinois today for the management of the aviation meet, in which at least two men have been killed and several injured.

The criticism followed the tragic death Saturday of Howard Gill and injury to George Messtich, who collided in the air.

In his bed at a local hospital George Messtich said:

"I blame the officials of the Aero Club of Illinois for Saturday's accident. It was foolhardy for them to attempt to run off a race after it had been decided that I would have the course to myself."

William Burns, who for two years was associated with Howard Gill, commenting today on Gill's death, said:

"Gill did not hit Messtich, as has been said. The wreck of the two machines tells the story. The entire rigging of the plane was tangled up with the chassis of the monoplane. Probably Messtich did not see the outline of Gill's machine until he was right on it. The officials of the meet certainly are the only ones who can be blamed for allowing this to happen."

The scene of the aviation meet given by the Aero Club of Illinois was transferred today from the Green field to Grant Park on the lake front. Victor Galtman, the manager of the meet, said the plane belonging to Gill was the one that was wrecked.

The officials of the aviation meet given by the Aero Club of Illinois was transferred today from the Green field to Grant Park on the lake front. Victor Galtman, the manager of the meet, said the plane belonging to Gill was the one that was wrecked.

## NOGI DECLARED HE WANTED TO DIE

Death of the Emperor Was Merely an Opportunity for Suicide

TOKYO, Sept. 16.—The will of General Count Marquis Nogi, who, with his wife, committed suicide, the moment the body of the late emperor started on its journey to the tomb, was published today. In it he suggests that his body be given to a medical college, requesting that only his teeth, hair and nails be buried in the grave.

The will says that the general follows the emperor because the emperor is no longer a man in this world, and chooses as the occasion for his departure from this life the present national calamity.

The document bears the date of the night of September 12th, twenty-four hours previous to the taking of his life, and it indicates that the death of the emperor had not been decided upon when the instrument was prepared.

It says that while his wife lives, the house of Nogi must be maintained, but after her death the line will be extinct. His wife, he says, is a devoted friend and a general public institution are made.

## QUESTIONS ANY CURE FOR CANCER

MUNSTER, Prussia, Sept. 16.—Professor Vinzenz Czerny, surgeon and bacteriologist at Heidelberg University and a world famous investigator of cancer, has sent a communication to the German medical congress dealing with the latest reported cancer cure.

A specific remedy for cancer has not yet been found, he says, and possibly never will be discovered.

The widely heralded chemo-therapeutic treatment by metallic salts, the professor continues, is only rarely successful and is too dangerous as yet to apply to human beings.

DROPS DEAD IN COURT.

TACOMA, Sept. 16.—Samuel Parker, aged 74, member in the United States District Court, dropped dead in the courtroom at noon today. Parker was a member of the Tacoma bar and was a resident of Tacoma when the latter was named to the federal bench here. He formerly was sheriff of Pierce county.

## FOUR FATALITIES TREMENDOUS CROWD HEARS ROOSEVELT AT LOS ANGELES

Battle at Phoenix Over Mexican Celebration Ends in Bloodshed

### MURDERERS ESCAPE

Poses of Citizens and Militia Are in Pursuit of Brawlers

PHOENIX, Ariz., Sept. 16.—Americanized Mexicans and a faction of their unAmericanized brethren battled today over the management of their native country's independence celebration, and as a result one American, an "innocent bystander," and a policeman were dead tonight. Chief of Police Moore, the fatally wounded, while another officer was seriously injured by knife thrusts. The murderers escaped, but posers made up of citizens and national guardsmen who were hastily sworn in at a special meeting of the city council are in pursuit.

The battle began in an alley near the city hall plaza, where the Mexican independence celebration was being held. Robert Williams, a motorcycle policeman, saw the Mexicans fighting, and he tried to arrest them. As J. Valenzuela, another policeman, saw Williams brought two of the brawlers as far as the jail entrance. There, both of the Mexicans drew knives and in a moment both Williams and Valenzuela were on the ground suffering from knife wounds. Williams may die as a result of his wounds. The battle at the jail entrance was the last of a series of fights that broke out in the city hall plaza, where the Mexican independence celebration was being held. Robert Williams, a motorcycle policeman, saw the Mexicans fighting, and he tried to arrest them. As J. Valenzuela, another policeman, saw Williams brought two of the brawlers as far as the jail entrance. There, both of the Mexicans drew knives and in a moment both Williams and Valenzuela were on the ground suffering from knife wounds. Williams may die as a result of his wounds.

## YOUTH OF 19 RUNS AWAY FROM FOLSOM

Good Prisoner for Year and Half But Farm Work Got Tedious

SACRAMENTO, Sept. 16.—Taking advantage of the trust placed in him on account of his youth, Harry McGovern, aged 19, serving a three-year term in Folsom prison for grand larceny, today made his escape from the prison by a hole in the wall. The hole was made in the wall of the prison by McGovern at about 3 o'clock and the general alarm was sent out to the countryside about the institution.

McGovern is 5 feet 5 1/2 inches tall, weighs 141 pounds, has a fair complexion, regular features and is considered fairly good looking. His eyes are light blue, his hair dark and wavy. He has several moles on his left cheek and has an oblique scar over his right eyebrow. His right forearm is tattooed with a design showing a woman's lower limb.

The escaped convict was received at the Folsom prison January 3, 1911, with a three year sentence hanging over him. He was a good prisoner, according to Warden Johnson, and was considered a likely youth to parole. To give him a chance to become accustomed to farm work nearest the prison he was sent to the prison ranch, where he worked on the prison walls. The work he believed to have become too tedious, resulting in today's escape.

## TREMENDOUS CROWD HEARS ROOSEVELT AT LOS ANGELES

(Continued from Page 1.)  
that many of the signatures are forgeries. He also declares that a new party must have the names of its candidates on the primary ballot in order to be represented on the ballot in the general election.

**STATES AND TRUSTS.**  
KANSAS CITY, Mo., Sept. 16.—That the remedy for the so-called trust is with the separate states rather than with the federal government, is the view held by Governor Thomas H. Marshall of Indiana, the Democratic presidential candidate, who began a tour of campaign speeches at Kansas City, Kans., today. In his first speech Governor Marshall made a bid for the Kansas Taft vote, and attacked both the Republican and Progressive parties. He paid particular attention to the latter, and accused its leaders of infidelity.

In an interview, he said that the individual states had the power to control or to eradicate the so-called trusts. He declared that it lay with the states to bring out in the state courts for the revocation of the charters granted by them, and that the other states in which an offending corporation was doing business could take care of the situation by revocation of its license to do business within the state's borders.

**RETURNS INDECISIVE.**  
SEATTLE, Sept. 16.—It is evident that the official count of the votes cast in the primary last Tuesday will be necessary to determine the winner of the Democratic nomination for governor. Complete returns from thirty-nine counties give the following:  
W. W. Black, 6103; Hugh C. Todd, 6001; Ernest J. J. 5778.  
The missing counties are likely to

bring Blaser even with the leaders. The official count will be necessary to secure the nomination of the Democratic candidate on the primary ballot. The leaders are Charles E. Fawcett, Louis Hart and Charles E. Fawcett, with Fawcett claiming the nomination by 500 plurality. D. H. Cox's figures give him the Republican nomination for treasurer over Ed Meath.

**TO MEET BRYAN.**  
LINCOLN, Neb., Sept. 16.—An announcement was made here this morning that Governor Bryan will be the guest of William J. Bryan over Sunday, October 14, following his address here on the preceding day. This will be the first opportunity for a conference between the Democratic nominee and Bryan, who have since the Baltimore convention.

It was also stated that Bryan will return from his Western speaking tour on October 1st, and will spend the days commencing either in Nebraska or some adjoining state, returning to Lincoln in time to welcome Governor Wilson, who will be his guest over the weekend. Bryan will act as chairman of Governor Wilson's Lincoln meeting, it is announced.

**WISCONSIN CONVENTIONS.**  
MADISON, Wis., Sept. 16.—Platform conventions for the several parties will meet in Madison tomorrow to draft resolutions with which to go before the people soliciting support for their candidates at the general election.

The presidential situation may entangle the members of the Republican convention should a resolution calling for the endorsement of Taft or Roosevelt come up. Senator La Follette, it is expected will be on the ground at the gathering, and his friends say that his influence will be felt in the framing of a platform.

The income tax law, it is promised, will furnish food for deliberation when the Democrats meet.

**AT SANTA BARBARA.**  
SANTA BARBARA, Sept. 16.—"Don't stand still," Colonel Roosevelt said to the crowd which met him in Santa Barbara today. "This is no time to hold back. Take a decided position in this fight. If you are with me, come out openly for me. That is the way to be really progressive."

Colonel Roosevelt stopped for ten minutes in Santa Barbara on his way down the coast from San Francisco to Los Angeles. The crowd at the station was large and enthusiastic, and much of the ten minutes was occupied in cheering.

"California has taken the lead in this fight," said Colonel Roosevelt. "If you will read the Progressive platform you will see that it is much like the kind of achievement of Governor William Johnson in this state. I want to see California hold its place in the lead."

Colonel Roosevelt received a noisy welcome when his train stopped at Santa Barbara. The noise came chiefly from a band which had gathered to play "Teddy, Teddy, Roosevelt," which the bands almost everywhere the colonel has been through the West, played although he has been in ignorance of the fact. He says that "The Star Spangled Banner" and "Garry Owen" are the only two tunes which he recognizes.

The boys made several attempts to agree upon a beginning, and whenever the colonel tried to speak the band struck up.

"Oh, well, I'd rather hear the band play than make a speech," said Colonel Roosevelt after he had been interrupted several times. The boys were finally silenced and the colonel made a two-minute talk before the train drew out. "Hurray for Teddy and Hiram!" shouted a man in the crowd. "I'll see Hiram for Hiram," the colonel shouted back. "Hiram is all right."

**APPEAL TO WOMEN.**  
Colonel Roosevelt appealed especially to women in his Santa Barbara speech.

"Women have suffered enough injustice in the past," he said, "so that we ought to be able to count on them for help in the present. Whether there are social or industrial injuries which we are trying to do away with, we feel that we have a peculiar right to appeal to the women to support us."

"It won't do you women any good to come out here and see me unless you go home and register and vote. I have been holding up California as an example because of what the women have done here, and we count upon you not to disappoint us."

Colonel Roosevelt said that neither the Democratic nor the Republican platform offered a solution of the great questions of the day. "The Progressive platform," he continued, "is a contract with the people. If any Progressive candidate fails to keep the promises in the platform or those which he makes upon the stump, I'll take the platform against him myself."

**ANSWERS BEVERIDGE.**  
CHICAGO, Sept. 16.—Across Ohio and Indiana, Governor Woodrow Wilson did some impromptu campaigning today that was as vigorous as it was unexpected.

He replied to Senator Beveridge of Indiana, who charged in a recent speech that Governor Wilson, if elected, would be boss controlled. State Senator Fred Kistner, and Mayor Fleck of Logansport, Ind., boarded the train and told Wilson about Senator Beveridge's speech so that when the Democratic candidate reached Logansport he hit at Beveridge to large crowd.

"I understand that in a speech made last Saturday," said Governor Wilson, "a very much esteemed friend of mine, namely Senator Beveridge, said that he entertained a very serious fear about me, namely, that if I was elected President I would be controlled by the bosses. I never suspected before that Senator Beveridge was a humorist; because if he didn't know that was a joke, he ought to have known that it was a joke. When did he ever hear that I had changed all my political habits?"

"The way you can tell whether a man is going to be controlled by the bosses is to judge whether he is in reach of a boss or not. Do you know what a boss is? A boss is a political agent of certain special interests who see to it through him that people they can control are put in office, and that laws they don't want are kept off the statute books; and the men who do that are the men who are interested in the great monopolies of this country."

**BOSSES ACCEPTED.**  
"I am sorry to observe that whereas the Republican party has practically fostered the trusts, and the Democrats propose to prevent monopoly in this country, the third party supported by Senator Beveridge proposes to put monopoly into partnership with the government by accepting it as an inevitable necessity and bringing it under the regulation of law; that is to say, making it a legalized institution. And when the men who have created monopoly are accepted as necessary to the government, do you suppose they are going to disperse with the men who are their necessary agents, namely, the bosses who determine who are to occupy office and what the legislation is to be?"

"Who created monopoly?" interrupted a man in the crowd and he repeated his question several times.

"The men who created monopoly, my friend," replied the governor, "are the men who have taken advantage of the protective tariff to make great combinations of industry, to shut out competition, and to make sure that the

prices are in their own control. And every Republican leader in our generation has been in league with these men."

"Who are they?" broke in another voice, and the governor's reply brought cheers.

"They are the men who have set up the great trusts," he said. "Everybody knows the list of them. Those men are the heads of the steel trusts, of the tobacco trust, of the Standard Oil trust, and of all the other trusts—that everybody knows."

**GOVERNMENT IN BOND.**  
"And until monopoly is abolished, until it is destroyed, the government is not free. And until the government is free, it cannot serve you or any man."

"Now, you can't tell by looking at me whether I am the man to do this job or not. You cannot tell the contents of my character by looking at my face. But I want you to study the program that he back of the various candidates."

The governor reached Chicago at 5:30 p. m. and left in half an hour for Sioux City, Iowa, and Sioux Falls, S. D., where two speeches are scheduled for tomorrow.

**BEDE AND HARLAN.**  
SAN FRANCISCO, Sept. 16. J. A. Bede, former congressman from Minnesota, and John Maynard Harlan of Chicago, who are following Theodore Roosevelt in the interests of President Taft's campaign, delivered addresses here and at Oakland tonight. They are attempting to refute Colonel Roosevelt's arguments and advance counter claims to the latter's assertions in each city.

Both speakers attacked the address of Roosevelt delivered in this city Friday night and announced their intention of following him on his entire tour and meeting his every argument. They will leave tomorrow for Los Angeles.

Harlan is a son of the late John Marshall Harlan, associate justice of the United States Supreme court.

**BRYAN AND ROOSEVELT.**  
DENVER, Sept. 16.—Col. term for Presidents and the necessity of selecting Woodrow Wilson for that office in November, was the central thought of campaign addresses delivered today by William J. Bryan in his tour of the Northern Colorado towns. At Fort Collins, he emphasized this point and scored Theodore Roosevelt for asking a third term.

"Roosevelt is an excellent hour convert to Progressive principles," declared Bryan, "and should not be trusted until he has proven his sincerity." He said that Roosevelt had never fought the people's battles but had sided with the progressives, both Republican and Democratic, in Congress. He charged that Roosevelt's campaign is being financed by the trusts.

"Mr. Taft distrusted the people and is dead politically," was Bryan's characterization of the President, whom he charged with having failed utterly to reduce the tariff in keeping with campaign pledges.

The first speech of the day was made at Greeley. Other stops were made at Windsor, Fort Collins, Berthoud, Loveland, Longmont, and Boulder. Mr. Bryan passed through Denver shortly after 5 o'clock on his way to Colorado Springs, to close the day's speaking tour.

**MARSHALL IN MISSOURI.**  
ST. JOSEPH, Sept. 16.—Governor Thomas H. Marshall of Indiana, Democratic vice presidential candidate, made his first campaign speech in Missouri here tonight. When he

reached convention hall after a reception at a local hotel, he was greeted by a cheering throng.

Governor Marshall devoted the major portion of his address to the tariff, which he denounced and declared it gave its beneficiaries a monopoly on products and free trade on foreign markets.

The Indiana executive, who in the day had made a number of short speeches at Kan City, on his arrival here, the governor was taken to a hotel for dinner and a reception. Immediately after his speech, he left for Hannibal, Mo., where he is to speak tomorrow night.

**JOHNSON IN ILLINOIS.**  
CHICAGO, Ill., Sept. 16.—Governor Johnson swung into line this morning for a tour, to be greeted by large crowds that he met on his previous visits. His first stop was at Chicago, where he was met by a large crowd. He then went to Springfield, where he has addressed a speech in support of his campaign. He also spoke at Macomb, Gladstone and Peoria, the Peoria meeting being held tonight in the Coliseum.

Before reaching Illinois, he made three speeches, two near Springfield, one at Port Madison, Iowa, and at Grand Rapids, Mo., and an address at the intersection of two business streets in Keokuk.

"The thousands of that Chicago convention are as good as the men who have penetrated the heart," he declared at Quincy. "You may say that there is no difference between the man who committed the theft and those who endorse it."

Speaking on the social and industrial problems of the nation, he said: "When you first take the conservation of its human resources as the prime purpose of every government, then in a hurry you have solved this great problem. If your stock, your homes, your cattle or your children were wasting away you would stop it. Does this waste of human resources less than the waste of stock? I think not. Yet in our great cities human beings are being wasted by the thousands."

**MAY RUN STIMSON.**  
BOSTON, Sept. 16.—President Taft resolved the issue of Senator Brown of Nebraska tonight announcing that the Republican organization there intended to resort to the courts to take anti-Taft electors off the state ticket.

The President will discuss the political situation in New York state and the fight the Republican convention is to make there at a conference in New York City September 21.

Chairman Hill of the Republican national committee and George R. Sheldon, its treasurer, are expected to be present and it is probable that they will make the trip to New York. The President will see the Secretary of War Stimson at the head of the New York ticket, but in line with his policy of keeping out of state politics, it is considered doubtful if he would take any active part in the selection of a gubernatorial candidate.

The President will leave Boston next Sunday night, spending Monday in Washington, where he addresses a congress on hygiene and demography. He will fly to New York Tuesday, remaining there all night, and then start for Atlanta to keep an engagement with the Civil War Governors

## TO PROBE INTRIGUES AGAINST MEXICO IN UNITED STATES

(Continued from Page 1.)  
LOS ANGELES, Sept. 16.—United States Senator William Alden Smith of Michigan and Senator A. B. Fall of New Mexico began today their inquiry into reports and reports that American interests, some of them prominent in development work in California, have been financing and fostering the present revolution in Mexico.

Senator Smith said that while he was not prepared to make a statement, his inquiry last week at El Paso had shown an apparent lack of firmness and decision on the part of the United States government in dealing with Mexico's inability to protect American citizens.

Mr. Smith, who is chairman of the Senate investigating committee, arrived here yesterday, and spent a day with his parents in Santa Ana. Senator Fall, who was here a week ago, returned from El Paso this morning and went into immediate conference with his associate.

"We are going to the bottom of the Mexican situation," said Smith, after he had greeted Senator Fall. "We will probe every angle, and if Americans have been participating, we will show their relations with the revolutionists, no matter when it may involve."

A score or more persons will be asked to appear at the hearings. The first of these was scheduled for this afternoon but on account of the presence of Colonel Roosevelt, not to mention a circus, it was not certain that the program would be carried out. Among those summoned, it is said, were those prominent in oil, land, mining and cattle industries in Mexico.

Everybody knows this great sale. Great as it has been heretofore, better goods at even lower prices make the 1912 Anniversary Sale the greatest we have ever announced.

From every department we have on sale desirable, seasonable merchandise at prices that, quality considered, are unequaled.

## COMMANDER SUFFERS STRANGE KNIFE WOUND

SAN DIEGO, Sept. 16.—After being in a local sanitarium for the past two weeks, said to be suffering from indigestion, it was admitted this morning that Captain Sasaki, commander of the Imperial Japanese training ship Taisei Maru, has been suffering from a knife wound in the throat. He was found unconscious in his cabin one night two weeks ago. Dr. H. N. Goff, who was summoned this morning admitted taking a number of stitches in the wound. He said he did not know whether an attempt was made upon the officer's life, or whether he tried to commit suicide. Since the happening Captain Sasaki has been relieved of command of the Taisei Maru. His successor is now en route from Yokohama. Sasaki will recover.

Association. He will leave Altona early Wednesday and arrive in Beverly early Tuesday.

The President told visitors today that there were no grounds for the report that Commander of the "Curry" Murray would be asked to resign.

## Climate Failed; Medicine Effective

It has been absolutely shown that rest, fresh air and good food do help many persons suffering from Tuberculosis. But it must be admitted that the disease is seldom more than "arrested." Something more is needed.

Beckman's Alternative is a medicine made for the treatment of Tuberculosis. It has conquered this disease again and again. Often these benefactors have been effected where the surroundings were not ideal and recoveries resulted. Now we argue that Beckman's Alternative should be used in every case of Tuberculosis, in addition to good, nourishing food and fresh air, which we all need. A remarkable case follows:

Weldon, Ill.  
"Gentlemen: Through Beckman's Alternative I have been saved from a premature grave. On December 14, 1904, I was taken with Typhoid Pneumonia. My lungs became very much affected; my sputum was examined and Tuberculosis Bacilli were found. On February 21, 1905, I was advised to go to Fort Worth, Texas. While there an abscess in my right lung broke and discharged. I grew worse, and became very much emaciated. My physician informed me that I must go to Colorado as quickly as possible. I left Texas, June 1 and arrived in Canon City, June 3, very feeble. After being there two weeks, my physician informed me that my case was hopeless. Three weeks later I returned home, weighing 103 pounds, the doctor having given me no assurance of reaching there alive."

On July 14, 1905, I began taking Beckman's Alternative. By September 1, I was stout and well and can do any kind of work about my grain elevator. I have not an ache nor pain in my lungs, eat well, sleep well, and never feel better.

(Respectfully) ARTHUR WEBB,  
Beckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in up-building the system. Does not contain poisons, opiates or habit-forming drugs. For sale by leading druggists. Ask for booklet telling of recoveries. Beckman's Alternative Laboratory, Philadelphia, Pa., for additional evidence.

## CLEAN STREETS

While the Board of City Trustees is determining whether to sweep the streets by hand or by machine, it would seem a good idea to adopt a temporary plan of having a broomman keep the principal business corner crossings clean. One or two men should be able to do this work, and it would add greatly to the appearance of the streets and to the comfort of pedestrians. Fashion Show will be here next week, fair visitors will be guests from all over the valley and Fresno women in their newest and finest will make the store promenade. For this occasion at least let us have clean streets.

Of course, the Board can make the streets of the older business section present a modern and attractive appearance except new gutters and resurfacing. A year ago, when this was proposed, some of the largest property owners threatened to resist payment and contractors refused to bid. Valuations of the property in question have more than doubled in the last few years, the property is very conservatively assessed and one would think that the small cost of resurfacing the streets might well be gladly given out of the increment.

Until these streets are improved, the down-town district will present a ragged and shabby appearance. Anything like thorough cleaning by any method will be impossible. At the same time, by small effort, the crossings can be kept passable, and for the present at least that much will help some.

It is to be hoped that the trustees will order these streets improved, itself undertaking to fight any suit and indemnifying the contractor, if necessary.

## SCHOOL TODAY

It takes but a symposium of opinions from the leading educators of the country to discover that the question as to what we should teach children in school is undecided; the only thing we are all unanimous about is that something must be taught. Therefore, as the "unwilling schoolboy" would his way to lessons today, he will find showered upon him, the best wishes and earnest support of every man and woman in the country. We are divided on all other issues. As to the need of good schooling, there can be no question.

Perhaps, in spite of all the new notions about the necessity of a "practical" or an industrial training, the most important thing is to have any kind of an education at all. The training of the mind to the subordination of the active body and the more active mind to the confinement of a desk and a schoolroom and a book, in their way a foretaste of the later confinement of the soul in the necessary round of life, these are the most important and the only essential features of an education.

We have schools, private schools for the most part, where they attempt to make freights of pupils, marvels of mental development. Our common schools will wisely continue, however, to perform the more simple, but even grander task of promoting healthy minds, in healthy bodies, so that the men and women of the hereafter may have that even balance between inclination for pleasure and ability to perform duties, which is the ideal of civilization.

## WASTING TIME

While a succession of appeals in certain cases that require grave legal consideration may at times have importance, the steps that have had to be taken in the Kansas dispute seem thoroughly foolish from a legal point of view. The attempt of the Taft leaders to overthrow the will of the Republic of Kansas that Roosevelt should be their nominee for the Presidency was first heard in the state courts, then decided for the Progressives in the Federal District Court and yesterday was again decided in favor of the Roosevelt people in the Federal Circuit Court of Appeals. Now it is to be taken to the Supreme Court of the United States, whose guess will be the last, as far as the judiciary is concerned. The people, from whom come all legislation and all justice, will have the final arbitrament.

How foolish it appears, however, that at least one of these steps could not have been dispensed with. It was known from the beginning that the case would be finally decided in the Supreme Court. Why could not the Federal District Court have certified the case at once to the Supreme Court, if it was of the kind which could be finally appealed to that tribunal? The Circuit Court of Appeals has added nothing to the knowledge which the Supreme Court will have upon the subject.

Presumably the answer is that the rules of the federal courts now require this succession of appeals. If so, this is one more argument in favor of that return of the procedure in the federal courts which even President Taft admits the need of and has urged in public statements. Strange, is it not, that some of the most flagrant violations of just, economical and logical procedure should be found in the very fountain head of justice?

Or it may be that there is another reason for delaying the final decision in the Kansas case pending these appeals. The Supreme Court has its ears to the ground, says Mr. Dooley. Ah, yes!

## JUST DEMOCRATIC

Just as President Taft's phrase about "government by a representative part of the people" gave Theodore Roosevelt occasion for the speech which finally annihilated Taft, so Woodrow Wilson's pronouncement that the advancement of government had been the limitation of government, gave Roosevelt occasion for the speech in San Francisco Saturday night, which completed the annihilation of the notion that Roosevelt and Wilson stand for similar principles of government.

In fact, as the campaign develops it becomes increasingly evident that Wilson is primarily, not a Progressive, nor even a twentieth-century Reactionary, but purely and simply a Democrat in the strictest and most partisan historic sense. He is a Progressive only in the sense that he is an honest and independent man, whose sympathies, to the extent of his lights and limited experience, go out to the people. For so much, let him have all due credit. But his inherited theories of government are as incompatible with economic progress as Bryan's were with economic soundness.

Wilson believes, as Roosevelt pointed out, in the theory that the interest and progress of the people lie in the direction of the limitation and not the expansion of the function of government. That is a theory which no man now believes who is now engaged in the practical work of political, social or industrial betterment. Roosevelt called it a "protectionist" view, but this was doing less than justice even to the professors. There is scarcely a professor of economic, social or political science or philosophy who now holds to that view. It is at most a historic view (and primarily Wilson is a historian, not an economist or sociologist). Most of all, it is a partisan Democratic view, a view of eighteenth-century thought and philosophy, kept alive in modern politics solely by the accident of the survival of the Democratic party, an eighteenth century party, into the twentieth century. Originally, too, it was a defensible view. When governmental power went from above downward, every limitation of governmental power was an increase of the freedom of the governed. But when government proceeds from the people themselves, any straight-jacket limitation of the power of the people's government is simply a limitation of the liberty of the people themselves to govern themselves.

The fact is that practically every modern Progressive measure is an expansion, not a limitation, of the powers of government. To regulate railroads and trusts; to increase the liability of employers; to limit the labor and uphold the wages of women and prohibit the industrial labor of children; to "blue sky" the bunco salesman; to compel safety in mines and factories; to prohibit the manufacture of matches out of the sort of phosphorus that poisons the workmen; to promote competition in competitive industries, and to regulate the monopoly of monopolized industries; to levy a tariff for protection; or an excise tax to enforce the pure food laws—all these and a thousand other pressing needs of the twentieth century involve the invasion of fields by government which the theories of the eighteenth century would have forbidden it to enter. Under those theories, rigidly carried out, no progress at all would be possible. Under a practical compromise, by a doctrine which believes theoretically in these principles, but is driven by need sometimes to compromise with them, progress will be greatly hindered, and its future jeopardized indefinitely.

Part and parcel of this adherence to historic Democratic doctrine are first this theory of the limitation of government, and second the equally Wilson-Democratic theories of states rights, and a tariff for revenue ONLY (note the "only"). Wilson believes, not in that expanding need of the activities of the state, within its scope, which is twentieth-century states rights, but in the more eighteenth-century view, of solving all questions, as between state and national jurisdictions, in favor of the states. That means stagnation. For industries and problems which were once local are now nation-wide. The nation must do things now, which the state could once better do, or else those things will not be done now. And law and government must do things now which the individual could once have done better for himself, or those things will not be done now.

There is a similar situation on the tariff. Even Hearst has repudiated Wilson on the tariff, on the ground that he believes in protection and that Wilson stands for the anti-protective tariff for revenue ONLY. That also is not a modern Progressive doctrine. The Progressive doctrine is legitimately protective. The stand-pat doctrine is stand-in protection for privilege. But the anti-protective doctrine is Democratic doctrinalism.

Choose ye!

Wilson, in a day dream, has imagined that the Progressives have abandoned the tariff field to him. The Democrats will find before November that the protective tariff is the rock on which they will sink to four years more of oblivion.

Merely a dramatic opportunity for previously contemplated suicide, says Nogi in writing of the Mikado's death just before his own self destruction. Thus does very modern acting imitate the last example of an heroic custom.

There are rumors that President Taft, to please Secretary of the Treasury MacVegh, will fire Comptroller Murray, and add one more to the list of political family troubles for which the administration is noted.

## "FAUL" AVIATION MEET FOR COLD AIR-PLANES.

By John T. McCutcheon.

(Copyright 1912, by John T. McCutcheon.)

## THE TARIFF

Editorial by Theodore Roosevelt

I believe in a protective tariff, but I believe in it as a principle, approached from the standpoint of the interests of the whole people, and not as a bundle of preferences to be given to favored individuals.

In my opinion, the American people favor the principle of a protective tariff, but they desire such a tariff to be established primarily in the interests of the wage-worker and the consumer. The chief objection to our tariff at the present moment comes from the general conviction that certain industries have been improperly favored by over protection. I agree with this view. The commercial and industrial experience of this country has demonstrated the wisdom of the protective policy, but it has also demonstrated that in the application of that policy certain clearly recognized abuses have developed.

It is not merely the tariff. That should be revised, but the method of tariff-making and of tariff administration. Wherever nowadays an industry is protected it should be on the theory that such protection will serve to increase the wages and the standard of living of the wage-worker in that industry with full regard for the interest of the consumer. To accomplish this the tariff to be level should, as nearly as is scientifically possible, approximate the difference between the cost of production at home and abroad. This differential is chiefly, if not wholly, in labor cost. No duty should be permitted to stand as regards any industry unless the workers receive their full share of the benefits of that duty. In other words, there is no warrant for protection unless a legitimate share of the benefits gets into the pay envelope of the wage-worker.

The practice of undertaking a general revision of all the schedules at one time, and of securing information as to conditions in different industries and as to the rates of duty desired chiefly from the rates engaged in the industries, who themselves benefit directly from the rates they propose, has been demonstrated to be not only inequitable, but futile. It has afforded opportunity for practically all of the abuses which have crept into our tariff-making and our tariff administration. The day of the log-rolling tariff must end. The progressive thought of the country has recognized this fact for several years, and the time has come when all genuine tariff-makers should have a thorough and radical change in the method of tariff-making.

The first step should be the creation of a permanent commission of non-partisan experts whose business it shall be to study scientifically all proposed changes in tariff rates and effects. This commission should be large enough to cover all the different and widely varying branches of American industry. It should have ample powers to enable it to secure exact and reliable information. It should have authority to examine closely all proposed subjects, such as the effect of any given duty on the consumers of the article on which the duty is levied; that is, it should directly consider the question as to what any duty costs the people in the price of living. It should examine into the wages and the standard of living of the workers in any industry, so as to insure our refusing protection to any industry unless the showing as regards the share labor receives therefrom is satisfactory. This commission would be wholly different from the tariff commission created by the act of March 3, 1890, which was a mere log-rolling method of tariff-making. One of the principal difficulties with the old method has been that it was impossible for the public generally, and especially for those members of Congress not directly connected with the committee handling a tariff bill, to secure anything like adequate and impartial information on the particular subjects under consideration. The reports of such a tariff commission would at once correct this evil and furnish to the general public full, complete, and disinterested information on every subject treated in a

tariff bill. With such reports it would no longer be possible to construct a tariff bill in secret or to jam it through either house of Congress without the fullest and most intelligent discussion. The path of the tariff "joker" would be rendered infinitely difficult.

As a further means of disrupting the old, crooked, log-rolling methods of tariff-making, all future revisions of the tariff should be made subject to schedule by changing conditions may require. Thus a great obstacle will be thrown in the way of the trading of votes which has marked so scandalously the enactment of every tariff bill of recent years. The tariff commission should render reports at the call of Congress or of either branch of Congress, and to the President. Under the constitution, Congress is the tariff-making power. It should not be the purpose in creating a tariff commission to take anything away from this power of Congress, but to afford a wise means of giving to Congress the widest and most scientific assistance possible, and of furnishing it and the public with the fullest disinterested information. Only by this means can the tariff be taken out of politics. The creation of such a permanent tariff commission, and the adoption of the policy of schedule by schedule revision, will do more to accomplish this highly desired object than any other means yet devised.

The Democratic platform declares for a tariff for revenue only, asserting that a protective tariff is unconstitutional. To say that a protective tariff is unconstitutional, as the Democratic platform insists, is excusable only on the theory of the constitution which would make it unconstitutional to legislate in any shape or way for the better of social and industrial conditions.

The abolition of the protective tariff or the substitution for it of a tariff for revenue only, as proposed by the Democratic platform, would plunge this country into the most widespread industrial depression we have yet seen, and this depression would continue for an indefinite period.

There is no hope from the standpoint of our people from action such as the Democrats propose. The one and only chance to secure stable and favorable business conditions in this country, while the same time guaranteeing fair play to farmer, consumer, business man, and wage-worker, lies in the creation of such a commission as I herein advocate. Only by such a commission and only by such activities of the commission will it be possible for us to get reasonably satisfied with the tariff schedule by schedule revision which shall be downward and not upward, and at the same time secure a square deal to the wage-worker and to the general consumer—New York Outlook.

## BRIEF EDITORIAL

## FANCIES SELECTED

## Exposition Directors Would Prevent Surplus of Labor

Among the praiseworthy features of the plan outlining and regulating the work of building the Panama-Pacific exposition is one which will be of particular benefit to San Francisco's workmen, and therefore of general benefit to the community. This is the provision for the completion of all buildings nine months before the opening of the exposition.

workers will scatter as soon as the demand for its services ceases, some of its members being absorbed by local industries and the remainder departing for their old homes or for places that offer good prospects of employment. That is what should happen, and the world's fair management is deserving of congratulation on the wisdom of its plan.—San Francisco Bulletin.

Here is a woman who speaks from personal knowledge and long experience, viz., Mrs. J. H. Brown, of Wilson, Pa. who says, "I know from experience that Chamberlain's Cough Remedy is far superior to any other. For every there is nothing that exceeds it." For sale by all dealers.

# Oil News from California Fields

## NORWAY AND SWEDEN SECURED BY STANDARD

**Given Monopoly Provided It Does Not Charge More Than in Other Places**

STOCKHOLM, Sept. 16.—The war for the control of the oil market in the Scandinavian countries has resulted in a practically complete victory for the Standard Oil Company. The only concession obtained by the Scandinavian Association from the big American company was that the price of oil in Scandinavian territory should not exceed the price asked in any other Scandinavian country.

The Standard Oil Company obtained an entrance into the country by an agreement with existing interests to take over the distribution system of oil in Scandinavia.

There was much opposition to the scheme by the Small Dealers' Association, which passed a resolution in favor of government intervention to prevent the establishment of a Standard Oil monopoly in the Swedish market.

The Austrian minister made every effort to secure the admission of Sweden to Austrian oil, which has been kept out by the Swedish safety regulations, as it does not meet the requirements for safe transport, being too light.

**CARTER'S LITTLE LIVER PILLS** will get you right in a few days. They do their duty. Case: Constipation, indigestion, and flatulence. SMALL PILL, SMALL DOSE, SMALL PRICE. Genuine leather Signature. *Wm. Wood*

## DEVELOPMENT WORK IN KERN COUNTY

BAKERSFIELD, Sept. 16.—The Cherokee Oil Company is building two rigs on the McGinnis & Henderson lease, section 11-31-22.

The M. H. and M. O. Company, operating on section 15-31-22, has a production of 12,000 barrels from three wells, in drilling another and building the rig for well No. 5.

The August production of the Midway Petroleum Oil Company from section 15-31-22 was 11,000 barrels. Three wells are producing, one is idle and another is being drilled.

The Cherokee Oil Company secured a production of 12,000 barrels from its six wells on section 23-31-22 during August.

The General Petroleum Company is down 1,210 feet with well No. 2 on section 22-31-24, and on section 22-32-23 well No. 1 is down 1,255 feet.

The Alameda Pioneer Oil Company, operating on section 22-31-23, has well No. 3 down 1,500 feet and No. 4, 1,700 feet.

The Caribou Oil Company is starting a new camp on section 23-31-24 and well No. 2 will be drilled by J. F. Ross.

W. F. Scott cemented the following wells during the past month: American Sunset, No. 1, at 1,685 feet on section 34-32-24; Kyle Davies well No. 1, at 3,785 feet, on section 4-11-23; Ethel D. well No. 2, at 890 feet, on section 34-32-24; South 34th well No. 4, at 2,747 feet, on section 34-32-24; Santa Fe well No. 10, at 2,510 feet, on section 6-22-23; Edmondia Midway well No. 2, at 2,610 feet, on section 32-32-23; United well No. 25, at 2,327 feet, on section 20-31-23; United well No. 21, at 2,847 feet, on section 26-31-23; Santa Fe well No. 21, at 800 feet, on section 17-32-23; Edmondia Midway well No. 2, at 2,690 feet, on section 32-32-24; National Pacific well No. 2, at 2,847 feet, on section 30-12-23; Roward well No. 1, at 842 feet, on section 1-29-21.

## CHANGES MADE IN J. F. LUCEY COMPANY

COALINGA, Sept. 16.—The following changes have recently taken place in the organization of the J. F. Lucey Company. Paul N. Boggs has been appointed vice president and general manager of the California business. L. E. (Ray) McCallum, who was formerly manager of the Coalinga branch, has been elected a director and appointed secretary of the Lucey-Gillispie Company of London, England. The Lucey-Gillispie Company, doing business through the continent, is affiliated with the J. F. Lucey Company. W. S. Evans is taken from the Los Angeles staff and made general field manager of the West Side with headquarters at Taft.

## CANADA PLANNING TO COMPEL USE OF OIL

**Bill Now Pending to Turn All Coal Burning Engines Into Petroleum Users**

COALINGA, Sept. 16.—The Canadian Parliament has under consideration a bill making it compulsory upon all railroads operating through the Dominion to use fuel oil. All coal burning engines will be barred after twelve months from date of passage of the bill. The great timber belts through Canada and the growing crop of grain are considered in danger, as a great majority of the timber and grain fires have originated from sparks from the locomotives on the railroads. The bill will be presented to the government and will not doubt pass this winter and become a law. There is something over 45,000 miles of railroads through the Dominion that will be affected. The great grain fields through the Northwest are now taxing the rolling stock of all Canadian railroads, the immense coal fields, fully as large as that of Pennsylvania, also furnish a great tonnage for these roads. The supply of fuel oil will largely come from California to meet the coming demand. One of the Canadian roads has plans and specifications for the building of oil tank steamers, so arranged that coal will be hauled down the coast and fuel oil returned in the same car.

WASCO, Sept. 16.—Twelve carloads of pipe for the Producers' pipeline from Junction station to Port Jancard, arrived in Wasco last week, and Gilmer & McCallum's force have a lot of teaming ahead hauling the pipe out along the line. Five trucks are engaged in hauling from Paso Buena delivering pipe from that end.

quarters at Taft. E. H. Clark, Jr., formerly vice president, has just completed a business tour of the world in the interests of the J. F. Lucey Company. He is now permanently located at New York City in charge of the growing export trade of the company. Mr. Clark predicts great activity throughout the world in the oil business within the next few years, development work and refining of the higher grades of oil to meet the increasing demands of the consumers in all parts of the world.

**MORE PIPE FOR PRODUCERS**  
WASCO, Sept. 16.—Twelve carloads of pipe for the Producers' pipeline from Junction station to Port Jancard, arrived in Wasco last week, and Gilmer & McCallum's force have a lot of teaming ahead hauling the pipe out along the line. Five trucks are engaged in hauling from Paso Buena delivering pipe from that end.

quarters at Taft. E. H. Clark, Jr., formerly vice president, has just completed a business tour of the world in the interests of the J. F. Lucey Company. He is now permanently located at New York City in charge of the growing export trade of the company. Mr. Clark predicts great activity throughout the world in the oil business within the next few years, development work and refining of the higher grades of oil to meet the increasing demands of the consumers in all parts of the world.

## OIL NEWS NOTES OF MIDWAY FIELD

TAFT, Sept. 16.—The No. 1 well of the Northern Exploration Company on section 22, 21-22, is down 2,000 feet, the 10-inch casing having been landed at that depth. The well is being drilled with a rotary. H. H. McCallum is in charge of the lease. The well is being put down to supply gas for the line of the Los Angeles Midway Gas Company.

The Oakland Midway Oil Company perforated its No. 1 well Thursday at a depth of 2,012 feet. The well is on section 13, 31-22. A 6-inch test has been put in the hole, this being the one which the Britannian company used the perforator on.

The California Well Drilling Company has landed the 8-inch casing in the new well of the Mays Oil Company at a depth of 2,591 feet. The well is on section 13, 31-22. The well is being drilled with a rotary. H. H. McCallum is in charge of the lease. The well is being put down to supply gas for the line of the Los Angeles Midway Gas Company.

Well No. 1 of the Mays Oil Company on section 22, 12-23, was perforated yesterday by Field Superintendent Barlow of the Britannian Drilling Company. The hole was put down 1,000 feet. The well is being drilled with a rotary. H. H. McCallum is in charge of the lease. The well is being put down to supply gas for the line of the Los Angeles Midway Gas Company.

The California Counties Oil Company on section 4, 22-23, is rigging up for its No. 3 well, which is to be drilled with a rotary by the California Well Drilling Company. New bunk houses have been built on the new camp and the entire camp enlarged considerably so that the crews may be well cared for. The California Counties Oil Company is operating on what was formerly the La Bello lease.

The Globe Exploration Company is planning to put down another well on section 13, 31-22. This is the company's home camp.

Well No. 6 of the Alaska Pioneer Company, on section 32, 31-23, has reached a depth of 1,650 feet. Well No. 5 is down 1,400 feet. The wells are being drilled with a rotary under contract to the California Well Drilling Company. Uniform and consistent headway has been made all along with the drilling of these two wells, although some hard sand has been passed through several times.

To offset the excitement, No. 2 well of the Mays Oil Company, which is producing heavily of light oil, the Record Oil Company has contracted to put down its No. 1 well on section 23, 12-23. Rigging will be in charge of the start action at once. Drilling Contractor Ross will be in charge of the rotary work on the hole.

This will be the first development work of the Record Oil Company on the West Side, although they are known as heavy producers in the Coalinga fields.

New buildings are being erected on the lease by Fellows carpenters.

WASCO, Sept. 16.—The Associated has three producing wells on section 29, 28-21, as a water well that has been under the pump for some time has commenced to flow oil at the rate of 100 barrels a day. The test now shows 14 per cent water and the oil is light gravity. The other two wells on the section are doing 240 and 220 barrels a day.

Rotary rigs were started drilling wells for the Associated on section 3 this week.

## UNION OIL CO. BUYS CORONATION PROPERTY

**Will Complete No. 1 Well Now Partially Drilled; Assumes All Debts**

MARICOPA, Sept. 16.—The Union Oil Company has taken over the Coronation Oil Company's property on section 4-11-23, and will complete No. 1 well, which is down 2,000 feet and has produced a large amount of oil. The well was temporarily put out of commission by the flow of water, and the Coronation people were unable to shut it off. They ran out of funds and creditors began pressing them, with the result that the operations had to be abandoned. It is understood that the Union assumed 55 per cent of the Coronation indebtedness and will pay off the same within six months, the Coronation agreeing to settle the remaining 15 per cent. It will be recalled that the Union three years ago took a controlling interest in the Lakeview Oil Company and completed a well which became the most famous gusher in the history of the local oil belt. The Coronation well was regarded as one of the field's greatest at the time it came in. The oil was of extremely light gravity, but the flow of water soon had to be abandoned. It is understood that a large amount of surrounding territory being ruined through the percolation of the water into the oil sands.

Creditors of the Midway Southern Oil Company, with claims amounting to \$3,000, have assigned their claims to one person to bring suit.

**STANDARD SECURES 2,500 BARREL WELL**

BAKERSFIELD, Sept. 16.—The Standard Oil Company, operating on section 36-21-23, has brought in a 2,500 barrel well in No. 7, which was finished at 2,450 feet. The oil is 26 gravity. The Standard has three other producers on section 36, Nos. 1, 2 and 3, and No. 2, which came in as a small producer, is being deemed to increase the production.

Wells Nos. 5, 6 and 8 are drilling. No. 1 has proved a fine well, having flowed for more than a year and is now doing 1,200 barrels a day. This section is said to be one of the best in the Midway field for amount and gravity of oil and gas pressure. Well No. 4 is also being drilled. It is pointed out that a well with a heavy gas pressure, but a trouble was encountered from caving and the well is now being repaired.

**BRIEF OIL NOTES FROM BAKERSFIELD**

BAKERSFIELD, Sept. 16.—E. B. Dudley and E. B. Dudley have decided to Walter S. Braun the following Lost Hole property:

East half of southwest quarter, section 36-26-21.

South half and northwest quarter section 1, 27-21.

East half, east half of west half, east half of west half of northwest quarter, section 2, 27-21.

West half of northeast quarter of southeast quarter, section 3, 27-21.

Southeast quarter of northeast quarter, section 10, 27-21.

North half of section 12, 27-21.

**PRODUCERS' LINE NEARING TERMINUS**

BAKERSFIELD, Sept. 16.—The Producers' Transportation Company has two large crews of men at work on the line in the vicinity of Shandon in San Luis Obispo county. The line is rapidly nearing the terminus at Port San Luis. The workmen are now between Creston and Shandon.

## UNION TO HAVE FOUR MORE OIL STEAMERS

**First to Be Delivered by Next March; Last in November, 1912**

BAKERSFIELD, Sept. 16.—A few days ago, the press dispatches from New York told of the contract placed by the Union Oil Company. Now comes the announcement from the Union's head office in Los Angeles that it has let the contract for four oil-carrying steamers, each having a capacity of 25,000 barrels, to be built in England. The first steamer will be delivered next March and the last by November 1, 1912.

The addition of these four steamers will give the Union eighteen large vessels carrying oil to the coast, a number of barges and small vessels. Recently the Union has added the steamer Cordella with 10,000 barrels capacity for the trade between Port San Luis and Panama. The Union ships from Port San Luis a large amount of its oil used in the coastwise trade, the oil being received from the Producers' Transportation Company, which handles the oil production of the Independent Oil Producers' agencies of Kern and Fresno counties.

The Union Oil Company's present fleet has a capacity of 30,000 barrels. At this time the oil is being received from the Producers' Transportation Company, which is said to be the largest oil steamer fleet. It has a storage capacity of 72,000 barrels.

**CARIBOU TO DRILL WELL WITH ROTARY**

TAFT, Sept. 16.—The Caribou Oil Company, on section 23, 31-23, has contracted with Jim Ross of Taft to put down its No. 2 well with a rotary. Rigging will be in charge of the start action at once. Drilling Contractor Ross will be in charge of the rotary work on the hole.

This will be the first development work of the Caribou Oil Company on the West Side, although they are known as heavy producers in the Coalinga fields.

New buildings are being erected on the lease by Fellows carpenters.

WASCO, Sept. 16.—The Associated has three producing wells on section 29, 28-21, as a water well that has been under the pump for some time has commenced to flow oil at the rate of 100 barrels a day. The test now shows 14 per cent water and the oil is light gravity. The other two wells on the section are doing 240 and 220 barrels a day.

Rotary rigs were started drilling wells for the Associated on section 3 this week.

**DRILL FOR WATER; OIL IS SECURED**

WASCO, Sept. 16.—The Associated has three producing wells on section 29, 28-21, as a water well that has been under the pump for some time has commenced to flow oil at the rate of 100 barrels a day. The test now shows 14 per cent water and the oil is light gravity. The other two wells on the section are doing 240 and 220 barrels a day.

Rotary rigs were started drilling wells for the Associated on section 3 this week.

**TRAGEDIES PUT END TO TWILIGHT FLIGHTS**

CHICAGO, Sept. 16.—Twilight flying was barred today by officials of the Illinois Aero Club as a result of the death of Howard Hill, who was killed Saturday in a mid-air collision, due partly to the semi-darkness.

A party around the southern limits of the city and Lake Michigan and a dash over the lake to Grant Park, was the route selected by twenty-five aviators for their "moving day" trip from the Cicero flying field to Grant Park this afternoon. The meet in Grant Park will continue for six days.

**NO NAVAL REVIEW AT SAN FRANCISCO**

WASHINGTON, Sept. 16.—The Navy Department announced today that the October review of the Pacific fleet in San Francisco harbor had been abandoned. It had been said it might be postponed for a few weeks, but a growing belief that it will be necessary to retain most of the fleet in Central American waters during the next few months or until elections have been held and a stable government installed in Nicaragua, has caused the abandonment of the whole scheme for this year.

The staple Amoskeag—quality—known the world over for its wearing qualities—just the thing for school dresses—sold in most stores at 12 1/2c—27-inches wide—fast colors—both dark and light, in a pretty assortment of patterns.

**Free to Thin Folks**

We Invite You to Test a New Discovery Which Does Actually Make Thin Folks Fat.

Send Today for Free 50c Box

Don't be a mere shadow of your true self. Let Sargol make you nice and plump. Let Sargol make you nice and plump. Let Sargol make you nice and plump.

Learn, look, skinny, scrawny men and women should take advantage of this ten-day free offer before it expires. Nothing is more embarrassing than extreme thinness. It is the plump well-developed man who "gets the medals" and has the fun socially. Scrawny, skinny women are seldom popular. We all admire the figures. No dressmaker can hide a bony, skinny form.

Here is a chance to test free the one guaranteed reliable treatment which has been taken in England by storm and which has just been awarded a gold medal and diploma of honor at Brussels, Belgium.

Nothing in history has ever approached the marvelous success of this new treatment, which has made more thin folks plump than all the "tonics" and ineffective medicines for fifty years.

There is a reason. Plump, well-formed men and women assimilate what they eat. Thin, scrawny ones do not.

This new discovery supplies the missing link which thin folks lack; that is the power to assimilate food.

It restores the vigor, re-establishes the normal, all in nature's own way. It is not a lark to faded nerves, but a genuine food.

This new discovery puts on firm, solid flesh at the rate of ten to thirty pounds a month in many cases.

Best of all—the flesh "stays put." The treatment is furnished in concentrated tablet form. A week's supply can be carried in the vest pocket.

No one need know what you are doing until you gain in weight causes complimentary comment.

Here is the special offer for the purpose of convincing this people in the community that these tablets will do just exactly what is claimed for them. It has been arranged to distribute the next 50c box for the coupon below.

This large 50-cent free package will be sent you in a private and perfectly plain wrapper, so that no one but yourself will know the contents. A company using this package will be full of complete data and directions, letters of testimony and a special letter of expert advice that in itself is well worth your attention.

If you want to add ten, twenty, or even thirty pounds of good solid flesh to your bones, don't delay, send at once for a free 50c package of Sargol.

All that you have to do is to cut out the coupon below and send it with your name, address and ten cents to pay for distribution expenses to the Sargol Co., 328-W. Fourth St., Birmingham, N. Y.

**FREE COUPON**  
To the Sargol Company, 328-W. Fourth St., Birmingham, N. Y. I enclose one dollar and desire a Free 50c package of Sargol, in accordance with your generous offer. I enclose ten cents to defray expenses. **PRINT THIS TO YOUR LETTER**

## Those Wonderful Bargains In Children's School Shoes Are Still In Effect Take Advantage of Them Quickly

School has begun but many persons have been so busy that they have not been able to come in to take advantage of the low prices we are making on children's shoes. The prices will remain the same however and there is yet time. But we suggest that you come in as soon as possible in order to have the largest assortment to select from as the splendid values we are giving and the low prices are making these shoes go very rapidly.

Bring the children in now and outfit them for the winter while it is possible to do so at such saving prices.

**Boys' \$2.00 School Shoes \$1.35**  
The uppers of these shoes are made of soft gun-metal leather and the soles are extension, made of solid leather. Cut in blucher style. The sizes are 11-2 to 5-12. They are shoes made to stand hard use and give service.

**Boys' \$2.50 Tan Shoes \$1.45**  
Blucher shoes for boys. Made of tan calf in sizes 4 to 5. They are extra values and are just the thing for school. There is a good assortment to select from just at present. These shoes will give excellent service.

**Boys' \$2.50 Button Shoes \$1.75**  
Black and tan calf skin Skuffers, made with either lace or button style. The soles are hand sewed. These shoes are made over the famous Skuffer last and are in sizes 11 to 12. They are excellent bargains at the special price.

**Boys' \$2.50 School Shoes \$1.65**  
Little Gent's \$2.00 Shoes ..... \$1.45  
Boys' \$2.25 School Shoes ..... \$1.65

**Children's \$1.50 Shoes at 95c**  
Soft id or gun metal calf uppers. Button or lace style. Heavy extension soles. Solid leather throughout. Sizes 4 to 8. These are splendid values.

**For Girls**  
\$2.00 Gun Metal Shoes ..... \$1.45  
\$2.50 School Shoes ..... \$1.95

**Misses' \$2.50 School Shoes \$1.95**  
The uppers of these shoes are made of gun metal, vici kid, or box calf. They are blucher cut and have neat, sensible toes. The extension soles are made of solid leather. These shoes are in sizes 11-2 to 2, and are splendid values.

**\$1.75 Vici Kid Shoes \$1.15**  
Some of them are made of a high quality of box calf and some of them are made of vici kid. They are solid leather throughout, cut in blucher style, and are in sizes 8-12 to 11. They are exceptionally good bargains and will give good service.

## HEAVY ENROLLMENT IN FRESNO CITY SCHOOLS

No Figures Available But  
Total Will Probably  
Be Over 6,500

Little Confusion in Opening  
Session; Teachers to  
Meet Today

The school year of 1912-1913 opened in Fresno yesterday morning at nine o'clock with an attendance that will no doubt eclipse all former enrollments. The normal increase was augmented by a large number of students coming in from outside towns to take advantage of the splendid school system offered in this city. The students were not registered in the schools yesterday but will be enrolled today and some estimate as to the increase may be arrived at this evening.

The schools are crowded to their capacity and the need for a new school is looming up to threaten the school department funds. To meet the overflow, two temporary open-air buildings will be erected, one at the Webster and one at the Jefferson school. As evidence of the congested condition in these schools, in some rooms over sixty pupils were crowded while the average provided for is not more than thirty. At the Webster school the rooms averaged 48 pupils each.

At the high school a very large freshman class was received and the increase over the enrollment of last year will probably be at least 70 giving the school a total enrollment of over 80 students.

Many students were enrolled in the Junior College while the Normal enrollment of 207 for last year was probably nearly doubled though no figures are yet at hand.

The attendance in the elementary schools last year was 5,181. In the high school and Junior college, 774 and in the Normal school, 207, a total of approximately 6,142, has been increased this year to something like 6,500.

A feature of the opening day of the

schools was the apparent ease in which the influx of students was handled by the teaching forces. Having received final instructions from the school superintendent, J. L. McLane, the principals were enabled to instruct their teachers fully and the pupils were marshaled in orderly manner into their respective class rooms.

As might be expected the work for the first day amounted to little more than the receiving of instructions for the purchase of books and supplies by the students. The difficulty is not in the grade schools in the lack of language books. The primary and advanced language books or grammars have not yet been issued by the state printing office and the classes in English in the elementary schools are handicapped for a time.

In the high school a regular program was followed in the morning. The students first assembled in the auditorium and were addressed by Principal Frederick Liddick on the advantages of an education and the value of hard work in school success. The changes over last year in several departments were explained and the students informed of the new arrangements made for the non-working department and new general and applied science courses.

Later while the Freshmen were receiving their instructions in the auditorium the other students devoted themselves for half an hour in preparing a schedule of subjects to be taken during the year from a chart hung in the hall of the main building.

The regular sequence of periods was run through in the morning of fifteen minute sessions each in which the many teachers informed the students of needed supplies and books.

The Normal school held an assembly in the morning and began the regular school work.

The grade schools went through a preliminary program in the morning. The schools were all dismissed in the afternoon.

The new course of study which was completed last Saturday evening was distributed to the teachers yesterday for preparation according to merit and efficiency and prevents an entire class from being held back in subjects through the dullness of one or more students. It has met with much praise and its inauguration is firmly hoped by all the educators to prove a success.

Today the principals of the schools will take the entire enrollment of the schools and it will be submitted to Superintendent McLane. A general meeting of the teachers of the city schools will be held in the high school at four o'clock this afternoon. This will be followed by a principals' meeting in which the questions of transfers and means of relieving crowded conditions will be discussed.

## FREE CITY MARKET IS CONSIDERED BY TRUSTEES

Sweeping of Streets by  
Hand in Daytime Is  
Proposed

Action on Various Matters  
Postponed to Fuller  
Meeting

Because of the absence from town of three of the city trustees, definite action on several matters which would have been had last evening with a full board in attendance, was deferred until the meeting on the 17th of next month. The absentees were Trustees Collins, who is on a vacation at George town in Prince George's county, Trustee Pickford in San Francisco, and Trustee Hart, who is in the mountains. Because of the reduced attendance, also, no action was taken as expected with regard to calling for bids for the completion of the playground pavilion. Final word on the playground received either as to the acceptance of the bids.

**DISCUSS FREE MARKET**  
Mayor Snow brought up the subject of a free market on a report that the supervisors had granted the Fresno street side of the courthouse park to the city as a location under regulations to be prescribed by ordinance. Such an ordinance will be presented at the next meeting for consideration and passage to go into immediate operation. In the discussion of the subject it was given out that a small fee would be charged vendors for their stands, these going toward paying the expense of maintaining the market on three days of the week and placing a man in charge.

The ordinance will fix market opening and closing hours, varying according to season. It was suggested that in summer the market open at 4 and in the winter at 8 in the morning, and the closing hour be 10:30 o'clock, except that on Saturdays the time be prolonged until the noon hour, no vending to be permitted on the place at other hours.

**SWEEPING STREETS**  
The question of sweeping the downtown streets by hand was also considered in general terms. Trustee Martin reported that it would cost \$22.50 to make small carts patterned after the model that he brought up from San Diego. One man would take of ten blocks, sweeping them twice daily. Trustee Jones doubted the efficacy of hand sweeping until a civic prize

in the streets has been secured in the town, and Mayor Snow again invited serious consideration of the subject as an economical means, associated with the idea of having clean, tree-lined streets when people are away, while under the present system they are soiled only during a period when the populace is asleep.

**FRANKLIN OPENING**  
Commissioners M. Jensen, H. Hart and L. H. Hillman reported a total cost of \$138.50 to open Franklin avenue through block 4, on Terry street. \$138.50 as damage awards and \$138.50 as expenses of the commission. The opening would be made in appropriate time for block 4 of the tract from Park to Poplar, continuing Franklin on a slight jog. The center of individual assessments for the opening would be 22, mostly \$1 and \$2 each. Remonstrances against the street opening must be filed not later than the 19th for hearing at the meeting of the board on the 24th prox.

**REGULATING STREETS**  
Trustee Jones made a report for a committee of himself and Trustees Martin and Hart citing charter provisions fixing upon the mayor or general supervisor and authority that the ordinances and regulations regarding streets shall be enforced, subject to participation to see to the actual enforcement, the fire chief and assistant, chief of police, city engineer and deputy to enforce all provisions under the building ordinance, the police and fire commissioners through the police department according to the manual, to see to the arrest and removal of all violators, the bringing them to trial and the punishment of the cases. The report was called for by criticism at a previous meeting regarding the neglected condition of streets with apparent divided authority as to the enforcement of regulations covering them.

**PAVING PROJECTS**  
Specifications were adopted and resolutions of intention passed for the grading, curbing, guttering, edging and paving of Blackstone avenue between Belmont and Stanislaus and Stanislaus between and to and from Stanislaus and Kern as well as between Stanislaus and Kern was remonstrated against by petitioners representing 2700 feet. Action on the remonstrance went over until a full board meeting, although the protest is sufficient to stop the work.

**BLACKSTONE PAVING**  
Property owners owning frontage of 1160 feet asked that in the paving of Blackstone from Belmont to the north city limits under the five year bond set the same specifications be used as in the paving south of Belmont. With regard to the widening of the avenue north of Belmont, action was deferred until an ordinance is passed at the next meeting making a uniform width of street of 52 feet from curb to curb. The width of blocks varies north of Belmont, but as regards paving the board resolved to go no further than Blackstone avenue, as far as which it has full control in the city limits.

**FIRE AND POLICE**  
The board acquiesced in the recommendation of the commissioners to advertise for bids to furnish auto truck for one of the chemical engines, being the churning wagon for transforming all apparatus from horse drawn to auto driven, also to buy a motorcycle for the fire chief and to exact an ordinance against the obstruction of fire plugs, city water fountains to be included in the ordinance. Laid over for a full attention was the action on the recommendation to buy a finger print identification for the police at a cost not to exceed \$250.

**RELAYING FLOOR**  
Trustee Fenger as chairman of the building committee was authorized as an emergency to contract with a relay with cement hose and asphalt top the flooring in Engine House No. 2, the wooden flooring having rotted away.

**COVERED PASSAGEWAYS**  
Robert Kennedy as the owner of the Sequoia hotel on J street, was given permission to erect a covered walkway to face on K street by means of covered precast passageways to the number of three, one for each story across the dividing alley-way on the block. Previous permission had been granted for such a passageway at the height of second story over a fully covered sidewalk.

**SIDWALK PETITIONS**  
D. A. Olsen asked for permission to lay cement sidewalk in front of his premises at 1033 Mildreda avenue, where the walk is out of repair. The city engineer was ordered to prepare a resolution of intention to sidewalk center north side of the avenue between Van Ness and Jensen.

Ben Hunt was permitted to put down a cement sidewalk on the east side of Yosemite avenue for 225 feet north of Webster.

Resolution of intention was passed to amend an ordinance to close the alley in city block 201 and abandon a part of another at one end of the triangular block for the continuation of K street through Woodward's addition to Railroad avenue, also for a removal of one of the spur tracks on San Diego avenue facing which the Sperry flour mills will erect stables and warehouse.

Randome-Crummey Co. was given 60 days extension on its contract of July 21 for the improvement of the alley in block 91 from Morse to Tolunne.

Property owners asked for are light at D and Santa Clara streets, referred.

J. W. Tilton was voted his last installment of \$2.00 for summer concert.

City Engineer Jensen and City Health Officer Alkon are the only city officials reported as likely to attend the annual convention of the California League of Municipalities to be held at Berkeley, commencing on Monday next.

### PERSONAL MENTION

W. D. Nelson, a real estate man of Hartford, is staying at the Grand Central.

Mr. and Mrs. Charles Yeom of Tulare are registered at the Hughes hotel.

Mr. and Mrs. A. M. Johnson of Eugene, Ore. are at the Hughes.

R. M. Baker, a prominent orange grower of Visalia, is at the Grand Central.

Mr. and Mrs. J. B. Johnson of Los Angeles are stopping at the Hughes hotel.

M. Froehner of Chicago, owner of a large ranch in Ingle Valley, is in the city on business, making his headquarters at the Sequoia.

# Fresno Fashion Show

Sept.  
23

Sept.  
24

The big fashion show, Fresno's second event of this character, will be held on Monday and Tuesday of next week. For many weeks the merchants have been planning for this event and it will be one worth coming many miles to see. The new, the fashionable, and the authentic will be displayed in a lavish variety of assortment that will cause surprise for nothing is too good for Fresno people and the merchants have taken great pains to secure the very best possible.

It is a Fashion Show well worth seeing, an event that will make history in Fresno.

## A Complete Review of All The Newest Parisian and American Fall Fashions

Paris and the American style centers have been searched to secure the newest and the rarest fashions. It will be a display of the creations of artists, the highest expression of expert craftsmanship. No woman who likes to have the most correct should miss it; no gentleman who is particular will fail to see it.

## 37 Stores Participating

Thirty-seven leading stores will participate in this showing of styles. Thirty-seven leading stores will hold their fall openings simultaneously and will make the most beautiful showings of all of the season's correct styles. There will be shoes, hats, jewelry, hair goods, furniture, clothing of all kinds. The 1912 Fresno Fashion Show is an event that will prove to the people of the San Joaquin valley that the place to learn of what is new is at Fresno for this is the only city in the interior of the state to hold a fashion show.

### Two Days

There are only two days so don't put off coming. Monday and Tuesday are the days and you should visit the stores on both days in order to see all. Plan to see all. Plan to visit every store. Plan to make the rounds of all of the stores participating, all will be glad to entertain you and will be glad that you visited each one.

## Excursion Rates On All Railroads

## The Beginning of School Makes Light Bills Higher

MORE and more education is putting its demands upon us. The children of this generation are required to do much more "home work." This "home work" necessarily must be done at night; consequently more light will be used. When you find that your bills are higher it is not because your meter is out of order, but because it is registering more electricity.

There are other reasons why your light bills will be higher—you spend more evenings indoors, you use the lights earlier in the evenings, you stay up later at night, and you find it necessary to turn on your lamp in the morning.

"Joaquin Service" is dependable.

## San Joaquin Light & Power Co.

M. E. Newlin, District Agent

**Alcohol for Boys? Go To Your Doctor**  
Ask your doctor how often he prescribes an alcoholic stimulant for children. He will probably say, "Very, very rarely." Ask him how often he prescribes a tonic for them. He will probably answer, "Very, very frequently." Then ask him about Ayer's non-alcoholic Sarsaparilla as a tonic for the young.

"Alfalfa is one of the most certain and most profitable crops of California. It does well in sections, where it can be given a deep soil and abundant moisture, either by irrigation or on land naturally damp. It is as certain as the seasons, and always in demand, and always brings good prices."

—Extract from the "California Farmer"

—and that's just the reason why the growing of alfalfa—on the

# PATTERSON

Irrigated Farm Lands

is a most profitable proposition.

The soil here is of a deep, rich, dark loam variety—with a sandy loam sub soil—over lying a stratum of gravel and sand.

Oceans and oceans of water are available at all seasons of the year—supplied by an irrigation system costing \$250,000 in which you acquire an ownership—when you buy land.

Take advantage of the special terms now offered and locate where prosperity is certain.

If you buy at this time—very little money will place you in the most promising DAIRY—ALFALFA—AND FRUIT section in California. We want you to talk to the men who are already located here; learn what they are doing—and what they think of the opportunities—for the man of limited means.

These men are continually increasing their bank accounts—and paying for their land at the same time; which is an easy task, considering the terms on which we sell this land and the fact that no "off" seasons are experienced in this territory.

## Select Your Land From the 200 Acres

Alfalfa,  
English  
Walnuts  
—and all kinds of  
California Fruits  
And Vegetables  
Grow Here  
To Perfection

## Recently Placed Upon the Market

The opening of this block of 200 acres—gives you the chance to secure the best land in the entire tract—which has been held in reserve—until this time—and which we wish to place under cultivation, in short order; hence the attractive terms—here advertised.

This land lies along the SYCAMORE BOULEVARD—only a short distance from the town of Patterson—a thriving—thriving city with 1,200 inhabitants.

When you buy land at Patterson—at the terms now offered—your first small cash payment is your only expenditure—for the crops will more than pay for the land.

Special Terms  
10 Per Cent  
Cash  
Balance in  
Ten  
Annual  
Payments

You can think this proposition over to better advantage—After you are in possession of the full details; and after we have proved every assertion to be correct.—Let's Get Together.
